

## XERXES & PIXY LED DOWNLIGHTERS

### Xerxes

The Xerxes led downlighter is a high output downlighter incorporating a Xicato Led Module and the latest in led technology resulting in a highly efficient and effective luminaire. The 60° wide beam optic is enhanced with four lumen output options and two colour temperatures which along with an 80+ Colour Rendering Index makes the downlighter suitable for most Commercial and Retail applications.

### Options

Lumen output: **12** = 1250 lumen, **17** = 1700 lumen,  
**22** = 2200 lumen, **30** = 3000 lumen

Colour Temperature: **3** = 3000k, **4** = 4000k

Bezel: White suffix /**WHI** Silver suffix /**SLV** Black suffix /**BLK**  
For Remote Emergency suffix /**EMR** For Dimmable Driver suffix /**DIMM**  
For IP44 Flush Glass suffix /**SG**

ie **XER/22/4/WHI** (XERXES LED Downlighter, 2200 lumen, 4000k, White bezel).

### Pixy

The Pixy led downlighter is a small yet powerful versatile led downlighter suitable for most Commercial, Retail and Domestic applications. There are various options available within the range incorporating three lumen outputs, three colour temperatures and two beam angles.

The incorporation of the Xicato led module and the latest in Thermal Management Design emphasises the quality of design and performance.

### Options

Lumen output: **04** = 400 lumen, **07** = 700 lumen, **10** = 1000 lumen

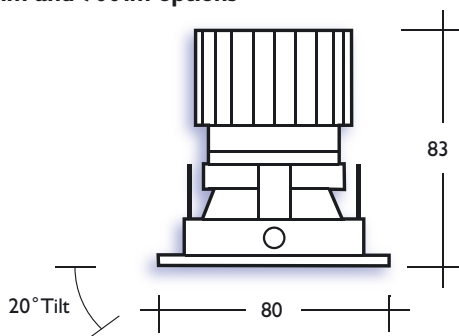

Colour Temperature: **2** = 2700k, **3** = 3000k, **4** = 4000k

Beam Angle: **M** = Medium 39°, **W** = Wide 70°

Bezel: White suffix /**WHI** Silver suffix /**SLV** Black suffix /**BLK**  
For Remote Emergency suffix /**EMR** For Dimmable Driver suffix /**DIMM**

ie **PIX/07/3/M/WHI/EMR** (PIXY LED Downlighter, 700 lumen, 3000k, Medium 39° beam angle, White bezel, complete with Emergency).

### 400lm and 700lm options

### 1000lm only
